Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Status of Claims

1. This action is responsive to amendment filed on June 22, 2009, where Applicant amended claims 1,8. Claims 1-14 remain pending.

Response to Arguments

2. Applicant's arguments, filed 6/6/06, with respect to the rejection(s) of claim(s) 1-14 under 103(a) have been fully considered and are partially persuasive. The previous rejection has been withdrawn in light of the amendment. However, upon further reading of the claims, the amended limitations fail to be consistent with Applicants specification, as outlined below. Applicants arguments are therefore moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 1-14 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.
5. The amended limitations of claims 1 and 8 state that the preference is installed on a device in response to (or based on) evaluation of the policies. Applicant remarks refer to

paragraphs 32,34,44,46 for support. However, the paragraphs appear to show something different from the claims. The end of paragraph 34 states that policies are used for processing the preference. The beginning of paragraph 35 states that before processing, the preference is installed on the device. This means that the preference is installed prior to the use of the policies and therefore the installation is not in response to the policies. There is an apparent contradiction between the claims and the specification. The mentioned paragraphs appear to not provide adequate support to enable one of ordinary skill in the art to make/use the invention.

Conclusion

6. Applicant may not introduce any new matter to the claims or to the specification. For any subsequent response that contains new/amended claims, Applicant is required to cite its corresponding support in the specification. **(See MPEP chapter 2163.03 section (I.) and chapter 2163.04 section (I.) and chapter 2163.06)**

7. In formulating a response/amendment, Applicant is encouraged to take into consideration the prior art made of record but not relied upon, as it is considered pertinent to applicant's disclosure. See attached Form 892.
